WEI-HAI-WEI TAKEN.

The Japanese Have Captured the City.

THE BATTLE LASTED TWO DAYS.

It Is Stated That the Chinese Lost Two Thousand Men—The Chinese Bolted When the Actual Assault Was Made. The Telegraph Wires to Wei-Hai-Wei Have Been Cut.

Chee-Foo, Feb. 1.—Wei-Hai-Wei was captured Wednesday after two days skirmishing. The Chinese bolted when the actual assault was made. It is stated that their loss was 2,000 men.

Lui-Kung-Tau, an island near the city on which are workshops and some forts, is still in the hands of the Chinese. All the Europeans in the city escaped unhurt. It is reported that during the fighting all the Chinese men-of-war and ships in the harbor sailed away uninjured.

Telegraph Wires Cut.

LONDON, Feb. 1.—A dispatch to The Times from Tien-Tsin says that a telegram from Wei-Hai-Wei received in that city states that the Japanese have captured all the southern forts. Since this dispatch was sent the telegram to Wei-Hai-Wei has been cut.

MINISTER KURINO TALKS.

He Feels That the Peace Negotiations Will Prove a Failure.

WASHINGTON, Feb. 1.—Minister Kurino of Japan was delighted to hear of the capture of Wei-Hai-Wei by his countrymen. He had been expecting to hear it, but his first notification came through the Associated Press.

A dispatch received at the Japanese legation from the minister of foreign affairs saying that the peace envoys were expected to arrive at Hiroshima today, and would be received with all the honors decreed in such cases by international law.

Speaking of the dispatch Minister Kurino expressed the fear that the peace negotiation might fail. "If such should be the case," he said, "it will be entirely China's fault. We have repeatedly stated publicly that our conferees, Count Ito and Count Mutsu, had full powers to treat, and we have demanded that the Chinese envoys should be similarly commissioned. Although we can not tell absolutely until their credentials are presented, it now appears that the latter have not power to agree absolutely to anything. Under these conditions we shall probably decline to treat, and in that case the blame will rest entirely on China."

OHIO SHIP CANAL.

Pittsburg and Cleveland Parties Interested in the Scheme.

CLEVELAND, Feb. 1.—A delegation from the Pittsburg chamber of commerce, headed by President George A. Kelly, are in the city to consult with the members of the Cleveland chamber about the proposed Lake Erie and Ohio river ship canal. Mr. J. J. Hudson, editor of the Pittsburg Dispatch, in explaining the project said it was proposed to run the canal from the Ohio river at Rochester, Pa., 25 miles from Pittsburg, thence by Youngstown, Niles and Warren, O., and probably ending at Ashtabula, Fairport or Geneva on Lake Erie.

The idea is to make the canal large enough to provide for all economic transportation. While barges would be especially adapted for the purpose. An effort had been made to interest the government in the canal, but owing to the length of time it takes to construct government works it had been decided to build the canal with private capital. The Pittsburg delegation came here to interest local capitalists in the enterprise.

Thorn Carried Seven Years.

LOGANSPORT, Ind., Feb. 1.—Over seven years ago, while employed in the construction of a telephone line near Logansport, Charles Gharis fell from a pole and was literally impaled upon the thorns of a honeylocust tree. With their knives, his fellow workmen cut him loose, and they extracted the thorns with their pinners. Their inexperience in surgery, however, led them to overlook one large thorn in their patient's leg and he carried it in his flesh until yesterday, when it worked out by itself, over a foot from the point of entrance. It was still in excellent condition. It has caused him but little inconvenience, despite the fact that it was over an inch in length.

FINANCIAL INQUIRY.

The Senate Calls on Secretary Carlisle for Information.

WASHINGTON, Feb. 1.—A critical stage of the financial discussion was unexpectedly precipitated in the senate at a late hour yesterday, just before the senators were preparing to go home. Intermittent references had been made to the subject throughout the day, but it was without definite form or purpose, and the senate finally lapsed into a discussion of the District of Columbia appropriation bill.

But the financial question arose incidentally, and finally, at 5 o'clock, Mr. Gorman launched a speech which proved to be one of the most effective he has delivered at the present session of congress. He pointed out the gravity of the treasury situation, intimating that the facts were being held back and that an investigation would show startling deficiencies. He defended the senate against charges of impotency, and declared that he had perfect faith that this great body would do its full duty before congress adjourned. He said a financial remedy would, if necessary, be added as a rider to an appropriation bill.

Spurred on by the energy, Mr. Gorman had suddenly injected into the question, the senate at once proceeded to consider and pass three important resolutions calling on Secretary Carlisle for information concerning every detail bearing on revenues, reserves, deficiencies, etc.

A warm party debate occurred during the day on the question of party extravagance. Mr. Chandler, Mr. Platt and other Republican senators asserted that the total appropriations for this congress would reach \$1,001,000,000, a million in excess of the billion appropriated by the Fifty-first congress.

In the House.

WASHINGTON, Feb. 1.—The house devoted six hours to the debate on the Pacific railroad funding bill, and although the speeches on both sides were characterized by unusual earnestness, there were no marked or sensational incidents. Those who participated in the discussion were Messrs. Bowers (Rep., Vt.) and Mr. Lockwood (Dem., N. Y.) in favor of the measure, and Messrs. Boatner (Dem., La.), Snodgrass (Dem., Tenn.) and Cooper (Rep., Wis.) in opposition to it.

The City of Ludington will strike across for Muskegon, and on arriving on the east shore will start for the ice field as far down as St. Joseph. It is expected this can be done by tomorrow afternoon. In case Captain Stines finds nothing of importance he will, after reaching St. Joseph, put about and run down to Sheboygan, to which port he was bound when the steamer was chartered to make the search by the Graham & Morton company.

JUDGE E. ROCKWOOD HOAR DEAD.

He Was a Very Prominent Man and Filled Many Positions.

CONCORD, Mass., Feb. 1.—Judge E. Rockwood Hoar died last night at 11:18 p. m.

EBENEZER ROCKWOOD HOAR.

Judge E. Rockwood Hoar was born Feb. 21, 1816, at Concord, Mass., being the son of Samuel and Sarah (Sherman) Hoar. He was a brother of United States Senator George F. Hoar of Worcester, and a member of a family which has for years been prominently identified with public affairs. After fitting in the primary and high schools he entered Harvard college, graduating in the class of 1835. He then taught school a year in Pittsburg, and later studied in Harvard law school where the degree of LL. D. was conferred upon him in 1839. For nearly a quarter of a century he was a member of the board of trustees of Harvard college, being president of the board nearly half of that period.

In March, 1869, Mr. Hoar was appointed attorney general of the United States by President Grant, and filled that office until June, 1870. He was appointed a member of the joint commission which negotiated the treaty between the United States and Great Britain in 1871. Mr. Hoar was a presidential elector at large in 1872, and was elected to the Forty-third congress as a representative. He was married in Concord in 1840 to Caroline D., daughter of Hon. Mason Brooks. Seven children blessed their union, Caroline, Sarah Sherman, (deceased), Samuel, Charles Emerson, Clara Downs, Elizabeth and ex-Congressman Sherman Hoar, now United States district attorney at Boston.

ACCIDENT AVERTED.

An Elevated Train Gets Beyond Control of the Brakes.

BROOKLYN, Feb. 1.—An accident of a serious character was narrowly averted on the elevated road at the terminus at Ridgewood yesterday afternoon. The tracks near the depot are covered with ice where the engines take on water and one of the trains running into the station with more than ordinary speed could not be stopped, although the brakes were applied with full force.

The engine, with two cars, partly filled with passengers, rushed past the station and plunged with terrific force against the bulkhead at the end of the track. Fortunately there was a large piece of timber lying across the rails which the engine encountered before it struck the bulkhead. This broke the force of the collision and saved the locomotive and cars with their passengers from plunging down into the street on top of the trolley cars that are constantly standing beneath. As it was, the bulkhead was demolished and the engine left upon the edge of the precipice just ready to topple over into the street. The passengers were thrown violently from their seats by the concussion and many were much frightened at their narrow escape.

A Peaceable Argument, a Quarrel and Double Murder.

LOUISVILLE, Feb. 1.—A special to The Times from Sergeant, Ky., says: News reached here last night of a fight that occurred early Tuesday morning on Carr's Fork, in Knott county, in which two men lost their lives.

Jack Collins, Will Amburgy and Nat and John Martin, all met at Jane Morris' house, and after a peaceable argument between Jack Collins and Amburgy, a quarrel arose over the woman, when Collins drew a revolver and fired four shots, one taking effect in Amburgy's abdomen, killing him instantly. The three other shots put an end to the life of Nat Martin and wounded John Martin very seriously.

Collins immediately made his escape and is yet at large, though a large posse of Knott county's best citizens and officers are after him. He is about 40 years old, has a wife and five children.

BROOKLYN, Feb. 1.—Upon the affidavit of Weber, the striking motorman who charged President Norton of the Atlantic Avenue Railroad company with violating Section 3979 of the revised United States statutes, in placing United States mail signs on cars that were not carrying mail matter, United States Commissioner Morle yesterday afternoon issued a warrant for Mr. Norton's arrest. It was placed in the hands of Deputy United States Marshal Biggert, who was instructed by United States District Attorney Bennett to see that Mr. Norton was brought into court at 10 o'clock.

Martin J. Connolly of the executive board of District Assembly 75, said last night that within the next two or three days Eugene V. Debs would be in Brooklyn. MOORISH ENVOY ASSAULTED.

Slapped in the Face by a Spanish Army Officer.

MADRID, Feb. 1.—The Moorish envoy Sidi Brisha, who came to this city on a special mission, was yesterday given a full state audience by the queen regent. As the envoy was leaving his hotel a man rushed up to him and struck him in the face, at the same time exclaiming: "Thus do Spaniards avenge General Margallo," referring to the killing in October, 1893, of the Spanish commander at Melilla, who met his death in an engagement with the Rifians. The envoy's assailant was arrested and found to be Brigadier General Fuentes. He will be tried by courtmartial. The blow caused the nose of the envoy to bleed. Sidi Brisha was deeply incensed, and declared that such an insult would be punished in Morocco with instant death.

After a short delay the envoy proceeded to the place, where he was received most graciously by the queen regent, who conferred on him the decoration of the military order of merit. Later, in the chamber of deputies, the minister of war, General Lopez Dominguez, expressed the regret of the government because of the occurrence, and said that the insult would be amply redressed. He explained that General Fuentes was a good officer, but that lately he had manifested symptoms of mental derangement.

Senor Canovas del Castillo, the leader of the Conservatives, also expressed regret for the occurrence. After the return of Sidi Brisha to his hotel he was visited by Marshal Martinez Die Campos, who expressed regrets.

They are waiting for an east wind to shift the ice.

The Nyack of the Crosby Transportation company is also ready to proceed to Milwaukee from Muskegon, where she is icebound. The Graham & Morton line's steamer Petoskey is at St. Joseph waiting for the ice off that harbor to shift. All the Flint & Pere Marquette line's winter steamers are icebound at Ludington. The Elbe Disaster Was a Horrible One.

NO HOPE FOR MORE SURVIVORS.

A Diligent Search Has Been Kept Up but Nothing Has Been Discovered Warranting Any Hope That More Than the Twenty Persons Were Saved—Official Figures Furnished by the Company.

BREMEN, Feb. 1.—The loss of the magnificent North German Lloyd steamer Elbe, which foundered in the North Sea Wednesday morning, has cast a gloom over this port, from which she had so often sailed on successful voyages to New York. Nearly all the details of the disaster have now become known.

The coast guard and customs officers are exerting themselves to the utmost, and are leaving no means untried in the search for possible survivors, or even for signs of any kind indicating that more of the Elbe's people escaped than have yet been heard from. Altogether 15 fishing smacks which sailed over the scene of the disaster have returned to Lowestoft. They report that they saw nothing to indicate that a steamer had been lost.

Official Figures.

FRIDAY, FEBRUARY 1, 1895.

FAIR, COLDER, WITH A COLD WAVE SATURDAY.

"ABLEST state paper written since the war," is what the older, thinking men of both parties say about Mr. Cleveland's last message.

THE Boards of Trade throughout the country, which represent the solid business interests of the Nation, are endorsing President Cleveland's last message, and are calling on Congress to pass a law embodying the President's recommendations.

A CARPENTER named John Best was repairing the wheel of the Ripley ferryboat the other day, when the Captain, who knew nothing about the fellow's dangerous position, stepped into the engine room and turned on the steam. The carpenter held on to the wheel, and was given four duckings in the ice water before the Captain "caught on" to the matter and stopped the boat.

A WOOLEN-MILL of 100 looms, to employ 150 weavers, will be built at Chattanooga at once. Five acres of land at Eastlake, a suburb, have been donated for the site, and the machinery ordered. The mill is a private enterprise, capitalized at \$75,000, and owned entirely by Chattanooga citizens, being the first textile industry operated in that city. And all this in face of the positive assertions of our Republican friends that free wool would ruin the wool industry in this country.

LEWISBURG SCHOOL.

The District Has the Handsomest House in the County—Comments of the Superintendent.

LEWISBURG, DISTRICT NO. 18.
The trustees are A. J. Calvert, Joseph M. Alexander and G. A. McCracken. The teacher is Mr. M. H. Kane; assistant, Mrs. M. O. Calvert. The attendance was thirty-nine.

These trustees are a credit to the district. They have built the handsomest house in the county—scarcely large enough for the district but can be enlarged. The lot contains two acres of ground and a year ago was liberally planted with trees, but most of them succumbed to the summer drought, still we shall have a handsome grove in time. The trustees have been fortunate in securing a superior teacher in Mr. Kane. He is very thoroughly qualified, and has a remarkable faculty for keeping his pupils interested in their work. Blackboard work in arithmetic and grammar recitations were highly interesting and satisfactory. The scholars showed such readiness in their recitations as proved good training. The school is well supplied with charts, maps, globe, conveniently furnished and has every requirement fulfilled for a complete school. Mrs. Calvert being called away on account of sickness in her family, left a substitute in Miss—, a bright, lovely young girl who was gifted with patience, for it was evident that a strong hand was needed to keep order. Later in the session in passing again near this school, I could not resist paying a second visit which was equally enjoyable with my first visit; and shall always when passing during school hours take pleasure in visiting this school. G. W. BLATTERMAN, Superintendent.

The River.

The Sunshine down last night.
The gauge reads 14 4-10 feet and falling.
All coal boats here in apparent good harbor.

The Keystone State was booked to lay up on arrival at Cincinnati.

The Telegraph and Stanley's movements depend entirely on the weather.

The rapidly falling river is making navigation in the ice the more difficult.

The Laurance still making her crossings though she has trouble making her landings.

No advice as to any boats leaving Cincinnati this evening, nor as to whether Hudson will be down or not.

The H. M. Stanley passed up for Kanawha yesterday morning and Telegraph for Pomeroy in the afternoon. The Keystone State down from Pittsburgh Thursday morning. These boats had all passed rough nights fighting the ice.

Vincent's Lectures.

Rev. Washington Gladden says of Mr. Vincent's lectures: "We have had four courses—perhaps that will indicate our estimate of him as well as anything I can say. His style of writing is fresh, racy, incisive; his elocution is perfectly unaffected, but bright and captivating. I am sure that all classes, the scholars and the unlettered, the old and the young, will enjoy him."

Mr. Vincent will deliver his lecture on "Carlyle" at the High school this evening. Door open at 7 o'clock; lecture begins at 7:30.

The Fife Meeting at Princeton.

PRINCETON, KY., Jan. 29.—The Rev. W. P. Fife, the evangelist, has been holding a series of meetings here in the opera house, none of the churches being large enough to accommodate the vast throngs of people. Such a revival has never been held here. From seventy-five to one hundred have already been converted, and the interest seems to increase with each meeting. The opera house will seat about 800, and at each service all available space is utilized and many can not gain admission for the want of room.

County Court.

Two appeals from the decision of the Board of Supervisors were filed Thursday, one by Mr. Eugene Davis and the other by Mrs. Mena Joerger.

AT the prices which I am offering sterling silver spoons and forks you will find it economy to buy sterling goods, in preference to using plated goods. Never have these goods been sold as cheap as I am now offering them.

P. J. MURPHY, the jeweler.

THE case of Wesley Osborne charged with the murder of Hiram Adams near Cottageville last summer has been continued till the next term of the Lewis Circuit Court. The application of the accused that he be allowed to give bail was refused, and he was ordered returned to the Mason County jail for safe keeping. Osborne's attorneys are Judge Phister of this city and Congressman-elect Pugh.

THE special act passed in 1886 providing a plan for free turnpikes in Mason County, referred to Wednesday by the BULLETIN, was, it appears from yesterday's Ledger, afterwards amended so that it does not have to be submitted to a vote of the people, but is now in effect. The BULLETIN is glad to learn this, as the act is carefully drawn and is far superior to the law a synopsis of which was given last week by the BULLETIN. Mason County has all the law necessary now to secure free pikes, and it should be carried out.

LOUIS SMITH.

A Native of Mason Who Was Cincinnati's Most Noted Colored Citizen.

[Cincinnati Enquirer.]

Louis Smith, aged 68 years, one of the most noted colored citizens of Cincinnati, died at his residence, No. 40 New street, a week ago, of rheumatism of the heart. Although unable to read or write, he was widely known in the United States and throughout England for his activity and zeal in the manumission of the slaves in this country.

He was born a slave in Mason County, Kentucky, and some time before the war he bought his own freedom from his master by the payment of \$1,000 in cash, which he had saved up by the exercise of the strictest economy. After securing his own freedom he went to New York, and interested Henry Ward Beecher in raising funds to purchase the liberty of his wife and three children. Wendell Phillips and William Lloyd Garrison, the great anti-slavery agitators, also made a personal appeal to the people on behalf of Smith's wife and children, and gave him letters of introduction to leading philanthropists of Great Britain.

Smith went to England on his mission, and was warmly welcomed by the Earl of Shaftesbury and other members of the English nobility. Public meetings were held, at which presided the Premier and the Lord Mayor of London, who made powerful speeches, appealing to the philanthropy of the people to contribute to the fund for the manumission of Smith's wife and children. Private subscriptions were taken up, and in the course of a very short time Smith returned to the United States with \$6,000, with which he purchased the freedom of his family.

He lived for several years at Ripley, Ohio, and acquired some property, but his wife and children died, and he lost his property. He was married the second time, but his second wife soon died, and in 1878 he was married on Cutter street to Miss Taylor, and she still survives him.

All of which is guaranteed to do you good and costs you nothing, at J. J. Wood's drug store.

TWO MORE cases of small pox reported at Lexington.

THE fuel gas plant will be sold next Monday at 1 p. m. at the court house door.

MR. A. P. SHOWN, of Cincinnati, and Miss Anna L. Davis, of Rectorville, were married yesterday by Rev. T. W. Wattle. The groom is engaged in the brokerage business.

THE February term of the Mason Circuit Court begins next Monday. There are 75 new cases, 30 equity and 45 common law. Five of the equity suits are for divorce.

MR. J. LAWRENCE OLDHAM and Miss Carrie Litter were married last evening at Falmouth. The bride is a daughter of Mr. C. H. Litter, formerly of this county, and has many friends in Mason.

IN the notice published by Mayor Cox concerning licenses, laundries were unintentionally omitted. The license is \$20 a year for each laundry and laundry agent and is payable as other licenses.

THE wife of Professor Van Cleve, the Cincinnati lecturer, has disappeared. She left a note saying she intended making her own living. The missing woman was apprehended at Evansville with a drummer, the couple having registered as man and wife.

THE statement of the Chesapeake and Ohio for the month of December shows the actual figures for the month to be, gross earnings, \$300,246.88; increase, \$81,908.21; expenses, \$547,569.18; increase, \$46,682.56; net earnings, \$252,677.70; increase, \$35,225.65.

THE many friends of Mr. and Mrs. Stockton L. Wood regret their departure from Maysville. Mr. and Mrs. Wood have gone to Sycamore, Clark County, where Mr. Wood will engage in business with his father-in-law, Mr. G. W. Winter. The best wishes of their wide circle of friends will ever follow them.

CALLED meeting Maysville Chapter No. 9, R. A. M., this Friday evening, February 1st, at 7 o'clock. There will be work in the Past Master and Most Excellent degrees. A full attendance of the companions is desired. Visiting companions courteously invited.

THAT MT. STERLING LYNCHING.

No Evidence to Connect Ex-Jailer James Best With The Affair. He is Discharged.

A special from Mt. Sterling says: "The grand jury failed to find evidence to convict ex-Jailer James Best with the mob that hung Blair the last night of the year. That body told the Court Wednesday afternoon no evidence that would in any sense justify an indictment against Best had been presented to them. Best was released from custody at 4:30 p. m. Detective Drake and his co-workers, Johnson and Bruner, left town immediately after Best's release, taking the 5 o'clock train."

Mr. Best's friends in this county will be glad to learn of the result of the investigation. None of them could believe there was any truth in the charge against him.

Expensive Traveling.

[Henry County Local.]

Many counties of the State are agitating the question of free turnpikes, and in many instances it appears that the agitation is destined to meet with good results. There is no reason under the sun why every county in the State should not have good roads and free roads. The truth of the matter is, Kentucky is far behind many of her sister States when it comes to public highways. True, some of her roads have a national reputation, but the exorbitant toll rates charged on them take all the pleasure out of travel over them. What we want is better roads, and all of them free. You can scarcely get out of sight of a tollgate on some roads in the Bluegrass region, and by the time you have figured up your expenses of 10 cents at this gate, 15 cents at another and so on, you will find it less expensive to go the journey by rail, no matter if it is considerably out of the way.

STILL MORE WARLIKE.

Mexico and Guatemala May Soon Be Fighting.

BOTH COUNTRIES PREPARING.

Troops and Ammunitions of War Being Sent to the Front—The United States Will Not Be Called on to Arbitrate Their Differences—War Will Probably Be Declared Within a Few Hours.

CITY OF MEXICO, Feb. 1.—There has been much question here in reference to the question of the proposed arbitration by the United States, it having been asserted that Guatemala was endeavoring to induce the United States to insist on Mexico arbitrating the matter.

Yesterday advices came from Washington showing that the conduct of the government there is entirely neutral and will continue so. It refuses to accept the mediation which Guatemala would have it force through at any hazards, unless it is satisfied that its interference would be approved alike by both contending parties.

Colonel B. C. Pate is receiving tenders of the services of many prominent participants in the late civil war in the United States, since the fact has been made known that he had tendered his services to President Diaz in case of war. Among the offers he received yesterday was one from General T. J. Lucas of Lawrenceburg, Ind., his old home.

It is rumored that some kind of definite announcement will be made tomorrow by Mexico. Although matters are quiet now, it would not be surprising should it prove to be a declaration of war. It is reported that the government is conscripting men in different sections of the country. Part of the commissary department of the Twenty-first regiment are at the depot of the Inter-oceanic road awaiting transportation. It is said that this and two other regiments will go to the frontier within a few days.

Military Preparations Being Made.

GUATEMALA, Feb. 1.—Military preparations are being made here hurriedly. Special envoys are coming and going between this city and other Central American republics continually, which gives the opinion that Barrios, president of Guatemala, is playing for time and at the same time doing all in his power to form an alliance of countries against Mexico. It is rumored that Barrios is trying to secure the services of officers of prominence in foreign countries to come to Guatemala.

Minister Romero Hopes For Peace.

WASHINGTON, Feb. 1.—Minister Romero of Mexico stated last night that he had every reason to believe that an amicable arrangement would be reached between Mexico and Guatemala, one honorable alike to both countries, and that he did not think that there would be war.

NEED RELIEF AT ONCE.

Hundreds of People in Nebraska Are Suffering For Food.

TOPEKA, Feb. 1.—The special relief commission appointed by Governor Morrill to have charge of the collection and distribution of food and other supplies for the relief of the suffering poor in the western countries, has received applications for aid from 16 counties.

A canvass of Rawlins county, on the Nebraska line, shows that 90 per cent of the people are without seed to plant, and 75 per cent are without the necessities of life. One man writes that some men and women are almost destitute of clothing, and children are barefooted. Another says men are clad in gunnysacks fashioned into garments.

In a number of townships many families are absolutely without fire except such as they can make of hay and other light material.

The commission is receiving encouragement from all over the state, but the people are not responding so promptly as was expected. In all, seven cars of provisions have been received from outside the state.

Letter of Thanks From the Governor.

ATLANTA, Feb. 1.—The last car of provisions contributed by Georgia was sent by ex-Governor Northen to the Nebraska sufferers yesterday afternoon. This makes 23 cars in all that Georgia has given to the sufferers of that section.

Ex-Governor Northen has received a letter of thanks from Governor Siles Holcomb of Nebraska in which he says: "For myself and in behalf of our people, I desire to express to you and your noble Georgians our thorough appreciation of your magnificent gift. Already the press of Nebraska has echoed the sentiment of the people of the state that this unsolicited response to the need of our unfortunates has doubly endeared your people to us. May peace, happiness and prosperity ever attend you and your kind-hearted people."

Suffering on the Cherokee Strip.

GUTHRIE, O. T., Feb. 1.—A resolution presented in the legislature yesterday asking for the appropriation of \$50,000 for seed for the settlers of Cherokee strip, elicited statements that the reports sent out from Perry and other territory towns that there was no destitution were false in every particular, and were simply attempts to bolster up those towns.

It was stated by a dozen or more members that the settlers had no need for stock or means of procuring seed to plant, and unless aid was given, a large percentage of the settlers would be found to abandon their claims. Thousands were living on milo maize and kafir corn, in absolute destitution, and many suffering for clothing and too proud to ask for help.

CARACAS, Feb. 1.—The garrison at Maturin is reported to have left that place on Tuesday on receiving news that Colonel Bernal, with about 100 men, had been seen near there. They came upon the rebels, who, instead of 100, were 600 strong. In the fight which ensued, over 90 men of the government troops were wounded and several killed.

A CURIOSITY OF LUNACY.

Periodic Recurrence of Mania, by Which the Patient Lives Three Lives.

There is a special form of mental disease first described in France, whose definite character is given to it by its periodicity, and hence it is called folie-circulaire. In it there are three sections of the mental circle that the patient moves in—viz, elevation, depression and sanity—and in this round he spends his life, passing out of one into the other, for it is, when fully established, a very incurable disease.

The patient takes an attack of mania, during which he is joyous, restless, troublesome, extravagant and often vicious. He eats voraciously, sleeps little and never seems to tire. His temperature is a degree or so above the normal, his eye is bright and glistening, he is enamored of the other sex, he shows diminished self control and no common sense.

This lasts for a few weeks, or a few months more commonly, and then he passes sometimes gradually and sometimes rather suddenly into a condition of depression, during which he is sluggish, dull, looking differently, dressing differently, eating differently, fearful, unreluctant and sedentary in habits.

This state will last a few weeks or months, and the patient will brighten up into what seems recovery and is to all intents and purposes in his normal state. This again lasts for a few weeks or months, and he gradually gets morbidly elevated. You find he is passing through every minute mental phase and habit he did at first. Depression follows, as before, and then sanity, and this round of three states of feeling, of intellect, of volition, and of nutrition, goes on, circle after circle, till the patient dies. He lives three lives.—Hospital.

Steam Collier Wrecked.

LONDON, Feb. 1.—The Times correspondent at Whitby, in the North Riding of Yorkshire, says that a steam collier was wrecked on the rocks at Port Mulgrave. A lifeboat was launched, but found it impossible to take the crew off. Finally 18 of those on board the wreck were landed by means of the rocket apparatus after terrible suffering. Two of the crew were drowned.

Snowing in Nebraska.

OMAHA, Feb. 1.—A special to The Bee from various parts of the state indicate that much snow has fallen in Nebraska and prospects of a continued fall. The snow of last week remains on the ground and with the fall of the prevailing storm, all alarm over the winter wheat has subsided. The mercury is at zero and a high wind prevails.

Cherokee Bill Pleads Guilty.

FORT SMITH, Ark., Feb. 1.—Cherokee Bill was arraigned yesterday and pleaded guilty. He was charged with the Red Fork robbery. He looks haggard, but had nerve enough to abuse his betrayers viciously when he saw them in the courtroom.

Cured Membranous Croup.

BROOKVILLE, Ind., Feb. 1.—The antitoxin serum was successfully used by Dr. Lewis in treating an aggravated case of membranous croup, the larynx being so badly clogged with mucus and false membrane that death seemed inevitable.

SHORT SWORDS FOR TWO.

A Story of What Might Have Been Among Old Time Senators.

The late Judge L. Q. C. Lamar possessed a remarkable peculiarity. Unusual excitement seemed to act upon his nerves like an opiate and put him to sleep. This was strongly exemplified after his remarkable verbal encounter with the great New Yorker, Mr. Conkling. Mr. Lamar, after scaring Mr. Conkling for life, leaving him with burning yet deferential resentment, closed as follows:

"I apologize to the senate for this seeming unparliamentary language" (advancing to the New Yorker and throwing his index finger full in his face), "language that no man, good man, deserves, and no brave man will wear." Immediately Mr. Lamar walked to the cloakroom on the Democratic side, lay down on a sofa, and in three minutes was sleeping as calmly as a babe. There was great excitement. It was believed Mr. Conkling would not submit to the language applied to him, and that, while he probably would not challenge Lamar, being an athlete, he would meet him on the streets and assault him. The late Senator Zeb Vance, a Hercules in stature, who was devoted to Mr. Lamar, without the knowledge of that gentleman or of any other human being, shadowed Mr. Lamar for some days, explaining afterward that if Conkling ever struck Lamar he intended to beat him to death. Mr. Vance, however, did not know what those intimately acquainted with Mr. Lamar knew. In all probability Mr. Lamar could have whipped them both. He prided himself upon his muscle and has often said to the writer, "I believe I am better fitted for a prize fighter than I am for a senator." It was apprehended by some that Conkling would challenge Mr. Lamar. Conkling was known to be an expert with the short sword. Mr. Lamar said afterward to an intimate friend in discussing the matter, "If Mr. Conkling had sent me a challenge, I should have chosen short swords."

"Why, Mr. Lamar," replied his friend, "Conkling is an expert with the short sword."

"I know that," replied the senator, "but I took some lessons with the short sword myself when I was in Paris the time that I was sent by the Confederacy on a mission to Russia."

"Why, senator," the friend replied, "you have not had a short sword in your hand in 20 years."

"I know that," coolly replied the senator, "but I should have chosen short swords."—New Orleans Picayune.

Toad Superstitions.

Superstitions as to toads having been early inculcated, it has been exceedingly difficult to get rid of them. One remnant of this ancient credulity still exists. It is in regard to the absolute imperishable character of the toad. There are well educated Americans who believe that a toad hops out alive from a slab of stone, though he has been imprisoned there for several millions of years. We give in brief Dr. Buckland's experiments with toads in 1825. He took 12 toads and had the toads put in 12 cells cut in sandstone, and over these he put plates of glass. They were buried in a garden for over a year. When exhumed, they were all dead. Then some were put in porous sandstone, and at the end of a year a few were found "greatly emaciated." When buried for another year, they all died. Toads were inclosed in wood, and they all died. The conclusion is that, deprived of atmosphere or without food, toads must die. If a toad as a tadpole could have entered a crevice in a rock, it might have grown, but would have died in time for want of air and food. This toad nonsense is so irradicable that it is supposable it never can be dissipated.
